

**DATE: 02/20/21**

**INVESTIGATOR: M. Lohnes**

**WEATHER: Cold (22 degrees), Fog (very heavy at times), South wind at 5-7mph**

**STOP 1 – HIGHWAY 66 WEST of  
ASHLAND GUN CLUB**

No change from previous reports (0945 hours  
– photograph looking north).

**STOP 2 – North of the Intersection of  
COUNTY ROADS 6 & F**

No change from previous reports (1000  
hours- photograph looking west)

**STOP 3 – Road 7/Highway 66**

Representatives from Clean Harbors (Steve  
Clason and helper) on site to place a barrier  
in culvert. No contamination noted (1013  
hours – photograph looking north-northwest).

**STOP 4 – County Road 8, North of Road H**

No flowing water noted. Dark discolored ice noted in creek bed. No odor noted (1018 hours – photograph looking east).

**STOP 5 – UN-L Eastern Extension – North of County Roads 9 & J**

Pick-up truck, tractor, pump and back-hoe on site. Tractor (running) was powering pump. Actively removing (pumping) material from creek. Unknown where material was being pumped to. No people on site (1027 hours – photograph looking north).

**STOP 6 – ALTEN LLC FACILITY DIGESTERS**

1035 hours – Terracon (Mike Hegameister and helpers) on site. We met with Scott Tingelhoff & Ken Peterson. Ken Peterson escorted me to the North Digester. North digester appeared to be sound (not leaking). (photograph looking southwest)
